### **ACCREDITATION**

The Infectious Disease Association of California (IDAC) is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. IDAC takes responsibility for the content, quality, and scientific integrity of this CME activity.

**PHYSICIANS:** IDAC designates this educational activity for a maximum of 6.0 *AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education. 1.0 hour is applicable to HIV specialist certification.

**PHARMACISTS:** Pharmacists may use courses which have been approved for continuing education by the Medical Board of California towards their California continuing education requirement, (Section 1732.2(b) of the California Code of Regulations).

**NURSES:** Continuing Medical Education (Category 1) is acceptable for meeting RN continuing education requirements (California Board of Registered Nurses).

### **DISCLOSURES**

This symposium is supported by grants from commercial interests. List of supporting companies will be available at the web site: [www.idac.org](http://www.idac.org) and disclosed at the symposium.

CME topics and speakers are chosen independently of commercial interests. Speaker disclosures will be provided in the course syllabus, distributed at the symposium.

### **ABOUT IDAC**

Founded in 1985, the Infectious Disease Association of California is a non-profit organization (Tax ID # 95-4106813), serving the educational needs of medical doctors in California with an interest in Clinical Infectious Diseases/HIV. IDAC is a regional society affiliated with the Infectious Diseases Society of America and the HIV Medical Association, as well as a recognized specialty society of the California Medical Association. IDAC conducts three symposia per year, publishes a quarterly newsletter, conducts research addressing clinical and business issues pertaining to the practice of Infectious Diseases, operates an Internet web site and email network, and coordinates a Speakers Bureau.

Full Membership is open to physicians practicing in California. Associate Membership is open to physicians practicing outside California, pharmacists, Ph.D.s, infection control practitioners, and microbiologists. Dues are \$125 per year. Membership is also available to I.D. Fellows-in-Training in California at no charge.

## **28th Annual IDAC Fall Symposium** **October 26, 2013 • Atrium Hotel, Irvine, CA**

The Infectious Disease Association of California (IDAC) hosts its 28th annual Fall Symposium on Saturday, October 26, 2013. The Fall Symposium mixes the discussion of clinical infectious disease topics and the chance to network with other medical professions from the infectious disease community in California.

This year's event takes place at the Atrium Hotel, 18700 MacArthur Boulevard, Irvine, CA 92612—across from John Wayne Airport.

As described in this brochure, this CME program will address:

- Human Papillomavirus (HPV) and Risk of HIV Acquisition
- Vaccine Update
- Neurocognitive Complications of HIV Disease
- The Human Microbiome
- Syphilis
- Local Fascinating Cases

Satellite Lunch Session — New Gram Positive Antibiotics: Treating absSTI.

In addition, the IDAC business meeting, conducted over lunch, will address issues related to the practice of clinical infectious diseases.

Our annual I.D. Fellows Mentoring Session will follow the formal program. This is an informal round table discussion for fellows to interact with IDAC members, addressing questions about opportunities in private clinical practice. In addition, I.D. Pharmacists will conduct a break out session.

### **TARGET AUDIENCE**

This activity is designed to meet the educational needs of physicians, pharmacists, researchers, infection control practitioners/nurses, and microbiologists with an interest in infectious diseases/HIV.

### **CME CURRICULAR GOALS & OBJECTIVES**

Upon completion of this activity, the participant will be able to:

- Apply new recommendations for the diagnosis, screening, and treatment of human papillomavirus and understand the risk of HIV Acquisition.
- Apply new recommendations for vaccines.
- Apply new recommendations for diagnosis, screening, and treatment of neurocognitive complications of HIV disease.
- Apply understanding of research on the human microbiome to patient care.
- Apply new recommendations for diagnosis, screening, and treatment of interesting local cases.
- Apply new recommendations for diagnosis, screening, and treatment of syphilis.
- Change practices to address cultural or linguistic healthcare disparities.
