ACCREDITATION

The Infectious Disease Association of California (IDAC) is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. IDAC takes responsibility for the content, quality, and scientific integrity of this CME activity.

PHYSICIANS: IDAC designates this educational activity for a maximum of 9.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education. I.

PHARMACISTS: Pharmacists may use courses which have been approved for continuing education by the Medical Board of California towards their California continuing education requirement, (Section 1732.2(b) of the California Code of Regulations).

NURSES: The California APIC Coordinating Council designates this educational activity for a maximum of 9.0 CEU hours.

ABOUT IDAC

Founded in 1985, the Infectious Disease Association of California is a non-profit organization (Tax ID # 95-4106813), serving the educational needs of medical doctors in California with an interest in Clinical Infectious Diseases/HIV. IDAC is a regional society affiliated with the Infectious Diseases Society of America and the HIV Medical Association, as well as a recognized specialty society of the California Medical Association. IDAC conducts two symposia per year, publishes a quarterly newsletter, conducts research addressing clinical and business issues pertaining to the practice of Infectious Diseases, operates an Internet web site and e-mail network, and coordinates a Speakers Bureau.

Full Membership is open to physicians practicing in California. Associate Membership is open to physicians practicing outside California, pharmacists, Ph.D.s, R.N.s, infection control practitioners, and microbiologists. Dues are \$125 per year. Membership is also available to I.D. Fellows-in-Training in California at no charge.

ABOUT CACC

Founded in 1978, the California APIC Coordinating Council (CACC) is a statewide steering committee for California's local APIC chapters, representing the collective interests of Infection Preventionists throughout the state. CACC's mission is to legislate, communicate, and educate it's members on issues related to infection control and provide input to the national APIC organization. More information on CACC is available at the website: www.caapic.org.

The Infectious Disease Association of California (IDAC), in conjunction with the California APIC Coordinating Council, hosts its 30th annual Spring Symposium on Saturday & Sunday, May 2-3, 2015. The Spring Symposium mixes the discussion of clinical infectious disease topics, with time to enjoy the destination and socialize with colleagues and their families.

This year's event takes place at the Westin South Coast Plaza Hotel, Costa Mesa, CA. As presented within this brochure, it will consist of 9 CME sessions and Break-Out sessions for physicians, pharmacists, and infection control practitioners. A Reception and Symposium Banquet will take place at the Seasons 52 restaurant at South Coast Plaza, across from the Westin Hotel.

TARGET AUDIENCE

This activity is designed to meet the educational needs of physicians, pharmacists, researchers, infection control practitioners/nurses, and microbiologists with an interest in infectious diseases, HIV medicine, and infection control.

CME CURRICULAR GOALS & OBJECTIVES

Upon completion of this activity, the participant will be able to:

- ▶ Understand the impact of gut microbiota on human health and disease and apply this knowledge to applications of antimicrobials.
- ▶ Apply new recommendations for physician attire on hospital-based infection control procedures.
- ▶ Apply new recommendations for evidence-based antibiotic management in patient care.
- ▶ Apply new recommendations for the diagnosis, screening, treatment, and prevention of Carbapenem-Resistant Enterobacteriaceae.
- ▶ Apply utilization of new laboratory testing techniques in implementing an antimicrobial stewardship program.
- ▶ Apply new recommendations for the diagnosis and treatment of infectious disease cases from a pathologist's point of view.
- ▶ Apply new recommendations for the diagnosis, screening, treatment, and prevention for Ebola and other global health issues.
- ▶ Apply new recommendations for the diagnosis, screening, treatment, and prevention for emerging infectious disease outbreaks.
- ▶ Apply the latest research on microbial biofilms in medical devices for developing infection control strategies.

DISCLOSURES

This symposium is supported by grants from commercial interests. List of supporting companies will be available at the web site: www.idac.org and disclosed at the symposium.

CME topics and speakers are chosen independently of commercial interests. Speaker disclosures will be provided in the course syllabus, distributed at the symposium.
