## **ABOUT IDAC**

Founded in 1985, the Infectious Disease Association of California is a non-profit organization (Tax ID # 95-4106813), serving the educational needs of medical doctors in California with an interest in Clinical Infectious Diseases/HIV. IDAC is a regional society affiliated with the Infectious Diseases Society of America and the HIV Medical Association, as well as a recognized specialty society of the California Medical Association. IDAC conducts two symposia per year, publishes a quarterly newsletter, conducts research addressing clinical and business issues pertaining to the practice of Infectious Diseases, operates an Internet web site and e-mail network, and coordinates a Speakers Bureau.

Full Membership is open to physicians practicing in California. Associate Membership is open to physicians practicing outside California, pharmacists, Ph.D.s, R.N.s, infection control practitioners, and microbiologists. Dues are \$125 per year. Membership is also available to I.D. Fellows-in-Training in California at no charge.

## **ABOUT CACC**

Founded in 1978, the California APIC Coordinating Council (CACC) is a statewide steering committee for California's local APIC chapters, representing the collective interests of Infection Preventionists throughout the state. CACC's mission is to legislate, communicate, and educate it's members on issues related to infection control and provide input to the national APIC organization. More information on CACC is available at the website: [www.caapic.org](http://www.caapic.org).

# 31ST ANNUAL IDAC SPRING SYMPOSIUM

APRIL 30-MAY 1, 2016 ▶ WESTIN SOUTH COAST PLAZA, COSTA MESA, CA

The Infectious Disease Association of California (IDAC), in conjunction with the California APIC Coordinating Council, hosts its 31st annual Spring Symposium on Saturday & Sunday, April 30-May 1, 2016. The Spring Symposium mixes the discussion of clinical infectious disease topics, with time to enjoy the destination and socialize with colleagues and their families.

This year's event takes place at the Westin South Coast Plaza Hotel, Costa Mesa, CA. As presented within this brochure, it will consist of 8 CME sessions and Break-Out sessions for physicians, pharmacists, and infection control practitioners. A Symposium Reception will take place on Saturday evening.

## TARGET AUDIENCE

This activity is designed to meet the educational needs of physicians, pharmacists, researchers, infection control practitioners/nurses, and microbiologists with an interest in infectious diseases, HIV medicine, and infection control.

## CME CURRICULAR GOALS & OBJECTIVES

Upon completion of this activity, the participant will be able to:

- ▶ Apply new CDC/ACIP vaccine recommendations.
- ▶ Apply laboratory techniques for the diagnosis of *Clostridium difficile*.
- ▶ Apply new treatment options for patients with recurrent *Clostridium difficile*.
- ▶ Apply new recommendations for the treatment and long term management of HIV patients.
- ▶ Understand the outbreak of CRE in local healthcare facilities and apply new recommendations for prevention.
- ▶ Apply the utilization of penicillin allergy testing, as part of an antimicrobial stewardship program.
- ▶ Apply the latest recommendations for the diagnosis and treatment of the Zika virus.

## DISCLOSURES

This symposium is supported by grants from commercial interests. List of supporting companies will be available at the web site: [www.idac.org](http://www.idac.org) and disclosed at the symposium.

CME topics and speakers are chosen independently of commercial interests. Speaker disclosures will be provided in the course syllabus, distributed at the symposium.
