

The Infectious Disease Association of California (IDAC) hosts its 36th annual *Fall Symposium* on Saturday, November 6, 2021. The Fall Symposium provides the opportunity for the discussion of clinical infectious disease topics and the chance to network with other medical professions from the infectious disease community in California.

This year's event takes place at the Long Beach Marriott, 4700 Airport Plaza Drive, Long Beach, CA—near the Long Beach Airport.

As described in this brochure, this CME program will address:

- Orthopedic Hardware Infection Treatment
- Whole Genome Sequencing in Infections
- *Beta-lactam* Antibiotic Therapy
- Invasive Fungal Infections in COVID-19
- *Staphylococcal* bacteremia Treatment
- Diagnosis & Treatment for Infectious Diseases in California

There will be a short IDAC member's meeting at lunch. In addition, an *I.D. Fellows Mentoring Session*, will provide I.D. Fellows-in-Training an opportunity to meet IDAC members in private practice and discuss career opportunities. Opportunities will be available to meet with the various vendors and learn about new and upcoming therapeutics and diagnostics that are available.

TARGET AUDIENCE

This activity is designed to meet the educational needs of physicians, pharmacists, researchers, infection preventionists, and microbiologists with an interest in infectious diseases and HIV.

CME CURRICULAR GOALS & OBJECTIVES

Upon successful participation in this learning event the learner will be able to:

- State the current treatment guidance with respect to Orthopedic Hardware Infections.
- Describe the clinical utility of whole genome sequencing in common infections.
- Apply concepts of therapeutic monitoring in beta-lactam antibiotic therapy.
- Summarize the epidemiology, diagnosis and treatment of invasive fungal infections complicating COVID-19 infections.
- Employ combination treatment for *Staphylococcal* bacteremia.
- Apply diagnostic and treatment concepts for select infectious diseases seen in California.
